

Good evening ladies and gentlemen, all protocols observed as I greet you in the wonderful name of our Lord and Saviour, Jesus Christ.

Today we join together to support a man of God who has been called to serve in a very specific capacity.

And as I stand representing the student body  
as StuCo President presently  
I dare not take this task lightly  
especially as he's been much more you see  
He has been like a father to me  
and many others at CNC  
and does so ably  
so Dr. Manswell as our new president we welcome thee.

Now on this special occasion  
my greeting is slightly edited with the creativity of our generation  
promoting one of 3 words Dr. Manswell would use (take note of my citations)  
and the first word is innovation  
even here at this inauguration  
we would see many demonstrations  
of this being pushed and promoted in word number 2, our organization.  
A word I've come to trust and not simply because I must  
but because we see fruit in the stabilization  
that cooperation  
amongst members of staff and students alike have gained by allowing him  
to enact his third word: operation.  
Not a scheme or scam for his own exaltation  
but rather a plan for all of us to get to our battle stations  
as we fight the good fight for permanent implementation  
Of quality holistic higher education  
and of course there can be no negation  
that this must be done in a Christian environment.

So as my time is now spent  
know the student body has lent  
their support to you as you enable growth.  
So take up the mantle and go forth.  
Blessings.
